You Are Invited

Please join us for a free informational breakfast detailing the CPIM certification review classes.

A unique, no obligation opportunity to learn about the CPIM certification. will be presented at the breakfast. Have a chance to meet APICS instructors and members from the APICS executive committee. You will also be able to network with APICS members. We look forward to meeting you at the breakfast! While there is no fee for this session, we would appreciate the favor of a reply by August 18 if you plan to attend.

Topics

- Overviews of courses
- Certification process overview
- Instructor introductions
- APICS member networking
- Question-and-answer session

APICS Fundamentals of Production and Inventory Control

Does manufacturing terminology have you confused?

Do you have employees new to manufacturing?

The APICS Fundamentals of Production and Inventory Control is an exciting classroom-based, instructor-led educational opportunity for people new to materials, supply chain, production and operations management positions - or people working in support positions that interact with production, supply chain or materials management.

Participants gain practical, essential skills that help them become more effective and productive in their jobs. The course is a series of 10 modules which teach basic concepts, techniques, and terminology.

This highly successful course is facilitated by APICS certified instructors who have real world experience in materials and operations management.

For people aspiring to APICS CPIM certification, Fundamentals of Production establishes a solid entry – level base of knowledge upon which to build.

The Fundamentals of Production and Inventory Control Modules

- Overview and Forecasting
- Bill of Material Structuring
- Inventory Control/Stores Control
- Master Scheduling
- Material Requirements Planning
- Capacity Planning
- Production Activity Control
- Just-In-Time
- Purchasing
- Managing the Total System

Who should attend

This course is essential for those new to materials, supply chain, production and operations management positions – or people working in support positions that interact with production, supply chain or materials. This course is also an appropriate foundation course for those individuals seeking CPIM certification.

Facilitators

Courses are facilitated by industry professionals who have earned their CPIM certifications through APICS.

Program cost

\$495 (includes all materials, continental breakfast and lunch).

Program date

November 1, 8, 15, 22 and 29, 2006
 8:00 a.m. – 4:30 p.m.

Sessions held at

Waukesha County Technical College
 Richard T. Anderson Education Center
 800 Main Street
 Pewaukee, WI 53072

Workshops presented in partnership with
 WCTC and APICS-Milwaukee Chapter

WCTC 
 892 Main Street
 Pewaukee, WI 53072

You are invited to learn how world-class companies save millions of dollars through effective problem solving and decision making methods.

The Kepner-Tregoe acclaimed process for problem solving and decision making is used and taught in major organizations worldwide. It is a conscious, step-by-step approach for successfully solving problems, making good decisions, and analyzing potential risks and opportunities. The innovative methodologies help you maximize your critical thinking skills, systematically organize and prioritize information, set objectives, evaluate alternatives, and analyze impact. The common language and process allows people with diverse content knowledge and skills to successfully resolve business issues. Kepner-Tregoe is an outstanding tool to identify high-impact Six Sigma projects.

Who Should Attend

This program is recommended for managers at all levels, from supervisors and middle managers to top executives. Employees and support staff who participate substantially in problem solving and decision making within their work units are also encouraged to attend.
