**Call 262.695.7833 for complete details; class sizes are limited.**

## Return on Responsibility (ROR) Executive Breakfast

### Navigating Today's Business Whitewater

**Today's leaders are constantly being called upon to remain relevant in the business environment – to remain competitive and, ultimately, to survive.**

- Do you have a great vision and strategy, but just can't seem to get your team to execute it?
- Are you thirsting for change, but your organization rejects ideas that threaten the status quo?
- Do you see a need for leadership at all levels, but there is just not enough of it to go around?

**Release the Power of Your Team!** As a top executive, it's unlikely that you need to learn more about financial analysis, engineering or marketing. But the one area where you actually never get to know it all is personal development. It is one area in which, no matter how good you are, you can always get better. Join us!

### Executive Breakfast\*

Date: December 14, 2006  
Time: 7:30 – 10:00 a.m.  
Location: College Center, Room C-124, Executive Dining Room  
Waukesha County Technical College  
800 Main Street, Pewaukee, WI 53072

## Here is what a WCTC Corporate & Community Training customer is saying...

*Thank you for sending us [instructor]. She had so many great ideas to offer the attendees and was tremendously entertaining and personable. Many people told me during the conference how much they were learning and how much fun they were having. Our attendees were so impressed that [instructor] became 'one of them' during the conference. From a meeting planner's point of view, she was wonderful to work with - pleasant, self-sufficient and very easy going. We look forward to the opportunity to work with [instructor] again.*

**Katy Ryder, Director of Corporate and Foundation Relations, Wisconsin Chamber of Commerce Foundation.**

## Six Sigma Green Belt Training Highlights

- Is your business under constant price pressure?
- Are you solving recurring problems?
- Do you need to become more productive and efficient?
- Would you like to generate savings of \$15,000-\$50,000?

If you answered **yes** to any of these questions, you will be interested in learning more about the WCTC Six Sigma Green Belt certification program.

### Six Sigma Green Belt Certification Program

The WCTC Six Sigma Green Belt participants are trained by Black Belt instructors to focus on the most important processes in the organization and apply relentless improvement within those processes. The participants are taught the methods to solve and eliminate problems. Problems are solved at the root cause using the DMAIC (Define, Measure, Analyze, Improve, and Control) and DFSS (Design for Six Sigma) methodology. The method was developed and fostered at Motorola and has been embraced by hundreds of companies in the service, manufacturing and health care industries. Six Sigma initiatives have literally generated billions in savings!

### Why choose WCTC for Six Sigma Green Belt Training?

- Participant must complete an actual company project to receive certification. The average project can save a company \$15,000-\$50,000.
- Black Belt facilitators will help your business scope an actual project where opportunities exist for improvement.
- Black Belt facilitators guide participants through all aspects of the training and the project until completion. The Black Belts are available to assist with technical assistance on future projects and serve as mentors to the participants.
- The projects identified serve as the foundation for application-based learning using the Six Sigma tools; this enables the company to receive an instant return on its training investment.

### Six Sigma Green Belt Spring 2007 Training Schedule

Time: 8:00 a.m. – 4:30 p.m.

Participants must supply their own laptop computers.

Dates: January 22, 23, 24
