Six Sigma Green Belt Certification Program

WCTC Six Sigma Green Belt participants are trained by Black Belt instructors to focus on the most important processes in the organization and apply relentless improvement within those processes. The participants are taught the methods to solve and eliminate problems. Problems are solved at the root cause using the DMAIC (Define, Measure, Analyze, Improve, and Control) and DFSS (Design for Six Sigma) methodology. The method was developed and fostered at Motorola and has been embraced by hundreds of companies in the service, manufacturing and health care industries. Six Sigma initiatives have literally generated billions in savings!

Why choose WCTC for Six Sigma Green Belt Training?

- Participant must complete an actual company project to receive certification. The average project can save a company \$15,000 – \$50,000.
- Black Belt facilitators will help your business scope an actual project where opportunities exist for improvement.
- Black Belt facilitators guide participants through all aspects of the training and the project until completion. The Black Belts are available to assist with technical assistance on future projects and serve as mentors to the participants.
- The projects identified serve as the foundation for application-based learning using the Six Sigma tools; this enables the company to receive an instant return on its training investment.

Six Sigma Green Belt Spring 2007 Training Schedule

Time: 8:00 a.m. – 4:30 p.m.

Dates:	January 22, 23, 24	April 17
	February 15, 16	May 7, 8
	March 19, 20	

Price: \$3500 includes all materials, books, MiniTab software, breakfast and lunch.

Participants must supply their own laptop computers.

Workshops held at:

Waukesha County Technical College
800 Main Street
Pewaukee, WI 53072

For more information or to register, please call 262.695.6576 or email cctmatrix@wctc.edu.

Green Belt training gave us the structure and plan to make our continuous improvement process even more effective and ensure we see long-term savings. It also helped us build a solid team of problem solvers who can lead the rest of our organization to new levels.

Neil Sheehan, Executive Vice President
Seaquist Closures LLC

Lean Accounting Workshop

This workshop provides training in the methods required to implement lean accounting. Learn why current accounting methods do not support lean activities and how to overcome those problems. During this interactive class, the participants will learn the principles of lean accounting and how those principles work out in practice for the management accounting systems required to support lean production activities. Exercises and examples will provide participants with hands-on experience of the development of lean performance measurements, transaction elimination, financial benefits of lean manufacturing, value stream costing, and target costing to support lean manufacturing and continuous improvement.

Date: January 9, 2007
Time: 8:00 a.m. – 4:30 p.m.

Place: RTA Education Center
WCTC Pewaukee Campus
Cost: \$300

Release the Power of Your Team – Build New Roads through Leadership

Destiny is not a matter of chance as much as it is a matter of choice. Set your course on leadership success by becoming a part of this unique coaching experience. Together with other like-minded professionals, you will learn the keys to making sound decisions, gain insight into tackling business challenges and leverage your knowledge and skills in your position.

Register for this 10-week process within an open and practical atmosphere to encourage candid discussions and interactive problem solving. By combining personal assessments with proven planning tools, you will grow as a leader and identify the critical elements to help you sustain long-term success. You will have a chance to share your experiences as well as hear ideas from others in the group.

Each weekly 2 1/2-hr. session incorporates a dynamic blend of group discussion, facilitation and independent study to encourage learning on many levels. Groups are “closed” after the third session to ensure confidentiality, cohesiveness and commitment.

Topics and critical issues:

- Leadership and You
- Tapping Your Hidden Potential
- Motivation
- Behavior and Conditioning
- Attitude Development
- Personal and Organizational Goal Setting
- Roadblocks to Success
- Creative Power and Visualization
- Managing Your Time
- Communication
- Delegation
- Decision Making and Problem Solving

Dates: January 10, 17, 31, February 7, 14, 21, 28 and March 7, 14, 21, 2007

Times: 7:30 – 10:00 a.m.

Place: Richard T. Anderson Education Center
Waukesha County Technical College
800 Main Street, Pewaukee, WI 53072

Facilitator: [Jerry Fons@www.executive-power.com](mailto:Jerry.Fons@www.executive-power.com)

Cost: \$1,825 includes materials and continental breakfast for 10 weeks of scheduled training as indicated above

Call: 262.695.6576 or email cctmatrix@wctc.edu to register
