Network Enterprise Administrator – INTERFACE Accelerated Pathway

Waukesha County Technical College has expanded training opportunities for high-demand careers in information technology and is helping businesses fill the skills gap by offering a special pathway of network enterprise administrator/cyber security education. This program provides students with the skills and experience necessary to support current industry technology implementations. WCTC will offer an educational pathway for participants interested in pursuing a career in information technology, including enterprise network support, network infrastructure and cyber security.

*This program has been designed for veterans, their spouses, TAA and WIA eligible students, unemployed individuals and other qualifying students.*

What does a Network Enterprise Administrator do?

Computer networks are a critical part of almost every organization and affect our daily lives. Network enterprise administrators are responsible for the day-to-day operations and security of these networks. Employers include health care organizations, financial institutions, information technology providers and educational institutions.

**Duties include**

- Determine organizational computer and technology needs in a network
- Install network hardware and software, including upgrades and repairs
- Maintain network and computer system security
- Monitor and evaluate network and system performance
- Add users to a network and control security access to network resources
- Implement and support network infrastructure and virtualized environments

**Career Outlook**

| Average wage pay, 2012 (Milw/Waukesha) | $72,270 per year  
| | $34.74 per hour |
| Number of jobs, 2010 (Milw/Waukesha) | 7,120 |
| Number of jobs, 2020 (Milw/Waukesha) | 9,020 |
| Job outlook (Milw/Waukesha) | 26.7% |

*Source: 2012 data from Wisconsin's WORKnet*

**Program Highlights**

- Short-term training (one year or less) is designed for those seeking entry-level positions:
  - Four-semester pathway includes multiple credentials which allow for job-out opportunities along the way.
  - Upon pathway completion, earn the Network Specialist associate's degree with an additional 30 credits.
  - Multiple articulation agreements exist that allow students to transfer in to four-year colleges with junior standing.
- Courses are offered in an accelerated, blended format, which includes in-class, online and worksite activities.
  - One-day-per-week course schedule with dedicated cohort is available in fall 2014, fall 2015.
  - Two-evenings-per-week course schedule with dedicated cohort is available in spring 2015.
- Guaranteed path to completion and a prescribed schedule of courses is planned for the entire four semesters.
- Each semester will include a live service learning project with a local business to provide real-world experience in support, networking and security.

The expanded Network Enterprise Administrator – INTERFACE Accelerated training opportunities are available thanks to a TAACCCT grant, and priority is given to veterans and TAA workers (those who lost jobs due to layoffs as a result of foreign trade). The $23.1 million grant from the U.S. Department of Labor’s Trade Adjustment Community College and Career Training (TAACCCT) Grant, which is shared among Wisconsin’s 16 technical colleges, has made this training possible.
