Medication Update/Health Professionals

A one-day seminar to offer nurses updated information on medications. Gain valuable information regarding new practices in medication administration.

The purpose for this program is to:
- Discuss the latest advances in the most frequently used medication classes
- Describe the newest research and future concerns related to medication

Target audience:
- Health professionals, including advanced practice nurse prescribers, medication assistants and others interested in medication updates.

Waukesha County Technical College is an approved provider of continuing nursing education by the Wisconsin Nurses Association, an accredited approver by the American Nurses Credentialing Center’s Commission on Accreditation.

Participation awards will be provided to all conference participants who attend the entire program. This program is being offered for 5.75 contact hours and 5.75 pharmacology credits.
