

Nursing Assistant

3-credit Technical Diploma

About the Program

Learn fundamental nursing skills by watching demonstrations, viewing films, discussing theory and practicing in the nursing lab in this 120-hour program. After mastering the skills, students will practice them on patients in a nursing home or hospital setting under the supervision of an instructor. The Nursing Assistant program provides a base for employment and helps students make future education and career decisions.

The State of Wisconsin Department of Health and Social Services approves this program as meeting the federal and state regulations for nursing assistant training. Upon successful completion of the Nursing Assistant program, graduates will be eligible to take the state exam which allows the student to be placed on the Nursing Assistant Registry in the state of Wisconsin.

Potential Job Titles

- Certified Nursing Assistant
- Care Partner
