
Pharmacy Technician

36-credit Technical Diploma

About the Partnership Program

Through a consortium effort with Lakeshore Technical College, the Pharmacy Technician program is offered through the use of distance education via television as well as on-site classes. Pharmacy Technicians assist pharmacists in hospital and community pharmacies. During this program, students will learn to package and label drugs for prescription

dispensing, prepare and deliver unit dose drugs to nursing services of hospitals or nursing homes, and prepare parenteral mixtures under aseptic and sterile conditions. Skills necessary to receive and inventory drug shipments, maintain records and patient profiles and compound solutions, ointments, lotions, suppositories, and other medications are also studied.

Potential Job Titles

- Pharmacy Technician
- Pharmacy Assistant

For more information, call 262.691.5400.

Physical Therapy Assistant

70-credit Associate of Applied Science Degree

About the Partnership Program

Learn the skills needed to assist a physical therapist with treatment programs according to a plan of care, train patients in exercises and the activities of daily living, conduct treatments, and use specialized equipment. Graduates will work under the direction of a Physical Therapist.

This is a consortium program with Blackhawk Area Technical College and is fully accredited by the Commission on Accreditation in Physical Therapy Education.

Potential Job Titles

- Physical Therapy Assistant
- Physical Therapy Aide
- Physical Therapy Technician

Credit Transfer

Credits earned in the Physical Therapy Assistant program may be transferable to institutions offering baccalaureate degrees. Visit www.wctc.edu/transfer for specific information. Since the details of credit transfers change from time to time, be sure to contact the intended college or university to verify credit transferability.

For more information, call 262.691.5400.

Radiography

70-credit Associate of Applied Science Degree

About the Partnership Program

Through a consortium effort with Milwaukee Area Technical College, the Radiography program is the first step toward a career in diagnostic radiology (x-ray). The radiographer is a technologist who produces images of the human body to aid physicians in the diagnosis of injuries and diseases. Typical duties include positioning patients to acquire needed films, selecting appropriate x-ray exposure factors, aligning x-ray equipment, processing images photographically or electronically, and storing and retrieving images.

Graduates of this program are eligible to take the entry-level certification examination administered by the American Registry of Radiography Technologists (ARRT). This program is accredited by the Joint Review Committee on Education in Radiology, 201 N. Wacker Drive, Chicago, IL, 60606; 312.704.5300.

Potential Job Titles

- Radiologic Technologist
- X-ray Technician
- Radiographer
