

5S Visual Workplace

The principles of 5S are based on the simple idea that manufacturing improvements begin with a workplace that is organized, clean, standardized, and contains only what is required.

Topics to be covered

- Comparison of workplace appearance and functionality before and after application of the 5S process
- Understanding the 5S concepts, including Sort, Set in Order, Shine, Standardize and Sustain
- Use of hands on simulation exercise to demonstrate principles
- Use of workplace scan checklist to create and maintain an organized workplace
- Understanding of impact on environmental health and safety

What you will learn

- Percentage S methodology
- Knowledge of the principles of visual order

Who Should Attend

The whole production team including CEOs, Presidents, Financial Managers, as well as those working on the shop floor
