EMS: Emergency Medical Technician

5-credit Technical Diploma

For more information: www.wctc.edu/fire-ems

An emergency medical technician (EMT) provides pre-hospital care to those experiencing a medical emergency such as illness, injury or trauma. The Emergency Medical Technician program provides entry-level training in emergency medicine. Develop skills to assess and manage all types of injuries and acute illnesses, while providing safe and rapid transport to a medical facility. Learn about airway management, patient assessment, medical emergencies, bleeding, shock and emergency childbirth.

- Prepare for jobs as emergency medical technician, emergency room technician or firefighter/EMT.

- Offerings within this program include mandatory clinical experience at a hospital emergency department.

- Upon program completion, students are prepared to take the National Registry examination to be licensed as an EMT-Basic in Wisconsin. This licensure is required before being eligible to register in subsequent EMS licensure programs.

Program Code: 30-531-3
