WAUKESHA COUNTY TECHNICAL COLLEGE

stands at the forefront of a new era in higher education. Surrounded by a rapidly-changing landscape, we're forging ahead while keeping our eyes on the horizon.

Ready to embrace new possibilities, WCTC is leaving behind the inflexible, top-down model of traditional strategic planning. Instead, our all-hands-on-deck approach incorporates feedback and guidance from all areas of the College, with plenty of space for creativity, change and new ideas to unfold.

The College has adopted a new Horizon Statement, which serves as a compass to guide us through the uncharted territory ahead. Our Aims are beacons that illuminate paths we have yet to discover.

At the precipice of a new educational frontier, WCTC recognizes the importance of being proactive, agile and forward-thinking in order to meet the diverse needs of learners in the 21st century. We invite our students, faculty, staff, and the entire WCTC community to join us in transforming the future of higher education.

“AS WE LOOK BACK, we are grateful for so many accomplishments, victories, and the growth and development of a college that has been at the forefront of higher education for an entire century. Most importantly, however, we recognize that WCTC is just getting started. As we complete our first century of educational excellence, we are shifting quickly to ensure the foundation for our second century is built to excel.”

- Richard Barnhouse, WCTC President
