HOW TO:

REGISTER ONLINE

Pre-registering before receiving a test will allow individuals to go through the testing site faster.
Go to: register.covidconnect.wi.gov

To pre-register, all you need is a device that can receive email. If you can't register ahead of time, you will still be tested. Staff will register you on site, but it will take more time.

How do I pre-register?

Scan the QR code at the top of this page, or go to: **register.covidconnect.wi.gov**

Answer the registration questions. Register with your Wisconsin address. Addresses outside WI may have delays. Each person must register individually.

Receive an email confirmation with a QR code. You can use the same email address to register other family members. You will be emailed one QR code for every person registered, even if you use the same email address.

Have your QR code ready. You will need to show it to staff at least twice!

How do I get results?

Until you have your test results, limit contact with others. Test results take 3-7 business days. Results cannot be expedited.

Negative results: you will be emailed a secure link to view and print results.

Positive results: you will be called by Public Health staff.

You can find more information about testing at: https://www.waukeshacounty.gov/COVID19

What if I have symptoms?

1. **Isolate yourself** until you receive negative results. Do not have contact with others. If you test positive Public Health staff will guide you.

2. **Do not go to work;** notify your employer you have symptoms and are waiting for test results.

3. **Do not go to a hospital unless it is an emergency.** Most people who have COVID-19 are able to get better on their own at home. See your "COVID-19 Testing: next steps and results" handout or visit our website for more guidance.

Register on your phone while you wait at: www.register.covidconnect.wi.gov
