Building Construction Trades
21-credit program

Building Construction Trades is one of the most enduring and rewarding careers. Whether you construct wood-framed residences, heavy construction commercial projects, industrial projects, or infrastructure projects, your legacy will stand for generations.

In the Building Construction Trades program, skilled journey-level trade workers will instruct construction safety, hand and power tool usage, wood framing, wiring basics, plumbing theory, and the latest software used in building construction. This program can lead students to a variety of career paths within the construction trades, including apprenticeship options.

WCTC’S DUAL ENROLLMENT ACADEMY (DEA) is designed to give high school students a jump start in high-demand occupations, awarding participants with a WCTC credential(s) upon successful completion along with earning high school credits. High school students will spend the majority of their school day, both the fall and spring semesters, at WCTC participating in DEA.

Prospective students should have a strong interest in pursuing a career in their chosen program option. Students must be in good academic standing with a minimum 2.0 high school GPA and also meet the WCTC program requirements. Parental and high school approval is required for a student to be accepted into the program.

Next Steps
1. Meet with your High School Counselor/Dual Enrollment Coordinator to see if you qualify for WCTC DEA.
2. Attend a Dual Enrollment Informational Session at WCTC.
3. Complete a WCTC Dual Enrollment Academy Application and submit it to your High School Counselor/Dual Enrollment Representative for approval prior to the posted deadline.
