

Central Service Technician

6-credit Technical Diploma

www.wctc.edu/central-service

Central service technicians work independently and as part of a team. If you have an interest in the medical field, are an active listener, detail-oriented team player with a penchant for organization, this may be a career to explore.

About This Program

Central service technicians provide patient care services in the healthcare facility by maintaining the equipment and supplies used in hospital and clinical settings. Learn the principles, procedures and skills needed to process, package, sterilize and distribute tools and equipment used in surgery and other patient care areas.

Career Salaries

\$30,100 – \$46,700 annually

Salary range estimates based on wages for related occupations in Waukesha County as reported by Economic Modeling Specialists International (EMSI). Individual wages may vary based on experience, industry, location and specific job requirements.

Potential Careers

Central Service Technician
Instrument Technician
Processing Technician
Supply Processing Technician
Medical Equipment Preparer

What Makes This Program Unique

- We offer courses for both day (fall) and evening (spring) completion options in this short-term, one-semester program.
- After completing 400 hours of on-the-job experience, graduates are able to take the International Association of Healthcare Central Service Material Management (IAHCSMM) certification exam.
- Current employees in the field can complete this program and then take the IAHCSMM certification exam.
