

Concrete Finishing (ABC)

12-credit Apprenticeship

www.wctc.edu/concrete

If you are dependable, pay attention to detail and enjoy being part of a construction team, working as a concrete finisher might be the career for you. Those in this field work on a variety of engineering/construction projects that involve setting forms, and repairing and finishing concrete projects.

About This Program

Concrete finishers help build highways, skyscrapers, houses and other concrete structures. They finish flat surfaces such as floors, foundations and roadways, as well as vertical surfaces including walls, beams and girders. Receive high-quality, hands-on classroom instruction that complements on-the-job apprenticeship training critical for success in the industrial trades.

Career Salaries

\$46,000 – \$73,000 annually

Salary range estimates based on wages for related occupations in Waukesha County as reported by Economic Modeling Specialists International (EMSI). Individual wages may vary based on experience, industry, location and specific job requirements.

What Makes This Program Unique

- Earn while you learn. Upon completion, apprentices have little to no educational debt and have been working their employer for multiple years.
- Jobs are available now. In the next few years, the construction industry will need as many as two million new craft professionals to fill the jobs available.
- Upon completion of your apprenticeship, you'll receive a nationally-recognized completion certification.
