

Plumbing (ABC)

16-credit Apprenticeship
www.wctc.edu/plumbing

If you are a good problem solver, strong communicator and are dedicated to getting the job done, a career in the plumbing industry may be right for you. Plumbers are tasked with installing, repairing and maintaining water pipes, and they have a thorough understanding of building codes, knowledge of blueprint reading and insight into water conservation techniques.

About This Program

Plumbers possess the skills and knowledge to plan, install and service plumbing systems, which can include those connected to washers, bathtubs, sinks, toilets, and heating and cooling systems. Receive high-quality, hands-on classroom instruction that complements on-the-job apprenticeship training critical for success in the industrial trades.

Career Salaries

\$45,000 – \$90,000 annually

Salary range estimates based on wages for related occupations in Waukesha County as reported by Economic Modeling Specialists International (EMSI). Individual wages may vary based on experience, industry, location and specific job requirements.

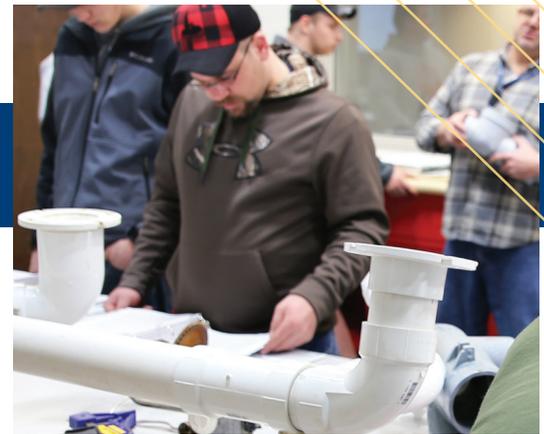

Potential Careers

Master Plumber
Journeyworker
Plumbing Designer

What Makes This Program Unique

- Earn while you learn. Upon completion, apprentices have little to no educational debt and have been working for their employer for multiple years.
- Jobs are available now. In the next few years, the construction industry will need as many as two million new craft professionals to fill the jobs available.
- Upon completion of your apprenticeship, you'll receive a nationally-recognized completion certification.
