

Radiography

62-credit Associate of Applied Science Degree

www.wctc.edu/radiography

If you are a self-motivated problem solver with good organizational skills, radiography might be for you. Radiography techs must also pay attention to detail and have strong communication and people skills. They work closely with other members of the medical team and interact directly with patients, making them comfortable and positioning them for X-rays.

About This Program

The radiographer is a technologist who produces images of the human body to aid physicians in the diagnosis of injuries and disease. In this program, learn to perform duties including positioning patients to acquire needed films, selecting appropriate X-ray exposure factors, aligning X-ray equipment, processing images photographically or electronically, and storing and retrieving images.

Career Salaries

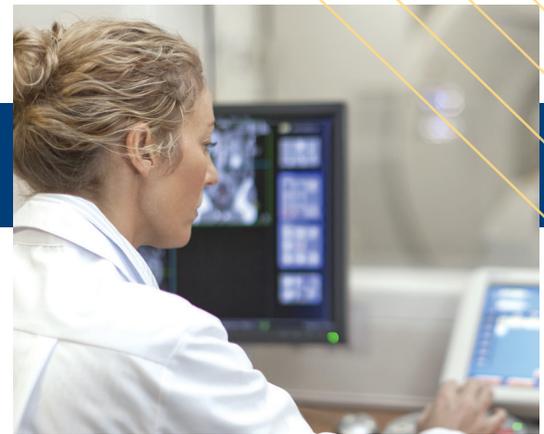

\$53,200 - \$74,800 annually

Salary range estimates based on wages for related occupations in Waukesha County as reported by Economic Modeling Specialists International (EMSI). Individual wages may vary based on experience, industry, location and specific job requirements.
